

## Montclair Environmental Commission Goals for 2014:

- Tree Committee
  - Begin monitoring/enforcement of tree preservation ordinance
  - Complete the *Community Forestry Management Plan (CFMP)* by June
  - Have 250-300 trees planted per year
  - Adopt a strategic approach to tree plantings
- Waste Management
  - Work with schools to establish green teams
  - Partner with the business community to reduce plastic bag and Styrofoam use
  - Begin recycling program for sports fields
- Energy Use & Efficiency
  - Present our community electricity aggregation resolution to the Council and ask for inclusion in their March Agenda
  - Continue to explore the electric shuttle (and interface w/MSU)
- Water & Open Space
  - Have Town Manager approve request for two projects on stormwater management (PVSC & Rutgers collaboration)
  - Explore the potential for green building codes
  - Generate an environmental review checklist for the planning board
- Lenape Trail
  - Install bollards
  - Increased publicity of the Trail
- Streetscapes
  - Begin the streetscapes review to make recommendations to the Planning Board, Council, and staff that will codify our policies related to curbs, sidewalks, trees, residential lighting, fencing, park amenities, and other areas.
- General Commission
  - Explore possibility of working with the town's grant manager for obtaining relevant grants, and for the execution and administration of current grants (i.e. the DOT grant).
  - Explore hosting a green festival
